INTRODUCTION

The Paralympic movement has come a long way since the 1976 Toronto Olympiad, one of Canada's first forays into what is now known as the Paralympic Games. Since then, we've seen a rich legacy of world-class sport performances and meaningful contributions from the Paralympic community to all areas of society.

INTRODUCTION

As we set a course for the next ten years, we believe Paralympic sport has the power to ignite transformative change in Canada, contributing to a more inclusive nation where people with disabilities are valued for all their capabilities, differences, and diversity.

VISION

Through Paralympic sport,
an inclusive world

MISSION

Together, deliver the best-prepared
teams for games excellence while
promoting inclusive communities
through the power of Paralympic sport.

STRATEGIC PRIORITIES

STRATEGIC PRIORITIES

Our strategy is built at the intersection of best-prepared teams and inclusion

When teams are well supported and prepared, they unleash their full potential, achieving results that might have once seemed impossible. We help create the conditions for Paralympic teams to perform and be their best at all stages of the journey. This pursuit of excellence is about the strides and gains made each day, about commitment and passion.

In Paralympic sport, a performance-focused environment must be built with inclusion at its core. As we evolve our approach, our role is not just to remove barriers but to reshape the very nature of sport to be inherently inclusive and accessible. It's imperative to foster a culture both inside and outside the Paralympic community that values and champions this shift.

In shaping environments and communities with this evolved approach, we pave the way for every athlete to achieve their utmost potential. By doing so, they can excel in sport and become catalysts for significant change in our broader society, promoting genuine belonging and unity.

STRATEGIC PRIORITIES

BEST PREPARED TEAMS

To have the best-prepared
teams thriving in a performance-
focused environment

BEST PREPARED TEAMS

As leaders of Paralympic sport in Canada, we are committed to building a dynamic and thriving community that ignites the passion and drive of every athlete, coach, and supporter who dreams of achieving Paralympic greatness.

We will support optimal performances that are achieved through rigorous training, preparation, and a healthy culture of excellence emphasizing positive experiences, well-being, and abuse-free sport. There is incredible strength and value in the journey to achieve excellence, and we will encourage the Paralympic community to embrace the process.

We understand that the journey to the Paralympic Games can be long and challenging. Still, we will be there every step of the way, providing unparalleled support, guidance, and resources to ensure our teams are ready and prepared for their moment in the spotlight.

We will also develop and invest in the Paralympic sport system to unlock its full potential and fuel unprecedented growth and opportunity. Our approach is rooted in investment, innovation, and collaboration and will support the development of athletes, coaches, technical leaders, sport scientists, officials, and classifiers for long-term engagement within the Paralympic sport system.

With this unwavering commitment to excellence, well-being, and growth, we are confident that we can achieve extraordinary things, elevating the spirit of our Paralympic community and inspiring future athletes to dream big.

STRATEGIC PRIORITIES

THE POWER OF INCLUSION

To promote and model disability inclusion through Paralympic sport

THE POWER OF INCLUSION

Imagine an inclusive Canada where people feel a sense of belonging; where accessibility is centered, and we work together to create access; where people with disabilities are valued for all their capability, diversity and difference.

Through Paralympic sport, we have a platform to model and promote what disability inclusion and accessibility can look like, and we will work across several areas to drive meaningful change.

We will lead by example and focus on ensuring that each person within our communities feels welcomed, valued, safe and can pursue their passions in sport and beyond. This means working in solidarity with Paralympic athletes to co-create and co-design each of the spaces we work and play in.

We want to develop more equitable opportunities on and off the field of play for people with disabilities. This work takes a village, so we will collaborate with members and partners who share the same vision and amplify our efforts. We will support with investments, capacity, and sharing knowledge to create access and opportunity at each stage of the Paralympic sport journey, including into the next stages of life.

It is also about delivering and sharing the stories of Paralympic athletes, coaches, and leaders. We want to drive a change in awareness of Paralympic sport and attitudes towards disability – where Canadians have an inclusive mindset and recognize the capability and diverse lived experiences of persons living with a disability.

As a Paralympic community, we have a lot to share with the world, and our unwavering commitment to doing better will carry us forward in igniting transformative change.
